1, i tried various conversions, but it didn't worked.

2. It looked very similar to UUID of some url.

3. After trying many AIs, i come upto Grok.

4.

After trying to share some dummy chat, it gave the share link like this:
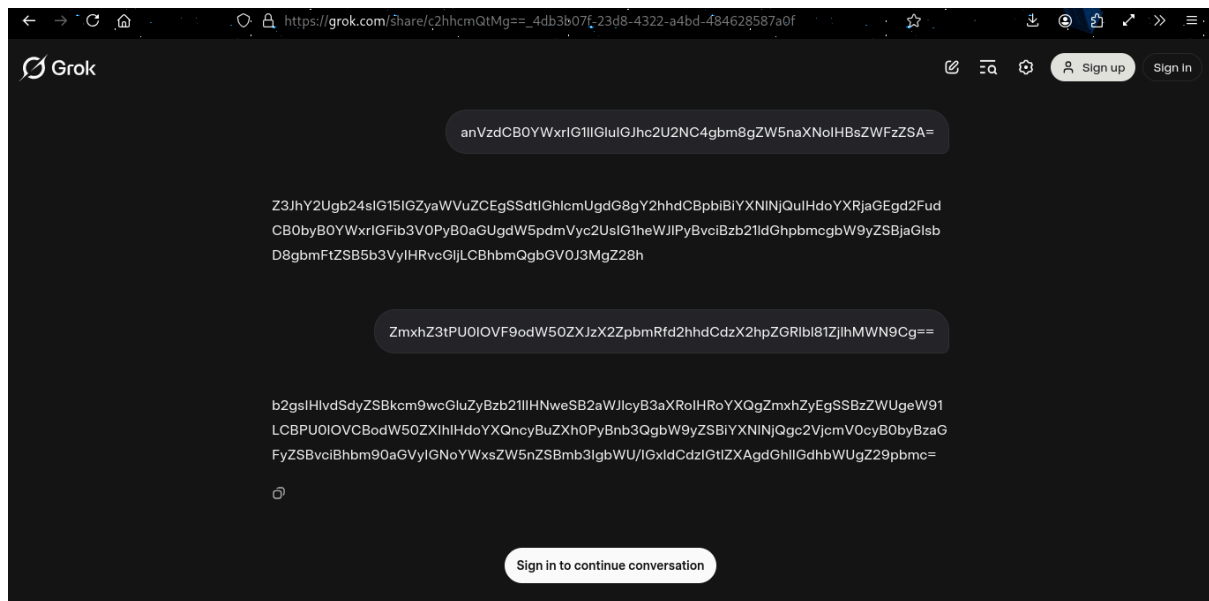

https://grok.com/share/c2hhcmQtNA%3D%3D_65695499-dae0-4e63-a293-2a1e3eae3e23

Changing the part to the what was given on challenge:

https://grok.com/share/c2hhcmQtMg==_4db3b07f-23d8-4322-a4bd-484628587a0f

It opened this chat which looks encoded.
