Writeup – Three_day_invasion

Challenge Description

We are given an image and asked:

Find the username of the person who posted this image?

Flag format: `flag{username}`

Step 1 – Reverse Image Search

Since only the image was provided, the first step was to check if it existed elsewhere on the internet.
I used **Google Images**

Step 2 – Finding the Source

The reverse image search returned multiple results, but one of them led to a post on **X (formerly Twitter)**.
This matched the original challenge clue.

Step 3 – Extracting the Username

On X, the image was posted by the user:

`@jembobineuse`

Step 4 – Submitting the Flag

According to the required format, the final flag was:

`flag{jembobineuse}`
